Alimento	Porção	Valor nutricional
Arroz branco cozido	1 xícara (150g)	130g carboidrato, 5g proteína, 0,5g gordura
Macarrão cozido	1 xícara (100g)	22g carboidrato, 3g proteína, 0,5g gordura
Feijão cozido	1 xícara (150g)	15g carboidrato, 8g proteína, 0,5g gordura
Carne moída cozida	100g	20g proteína, 10g gordura, 0g carboidrato
Doce de leite	1 colher de sopa (15g)	20g carboidrato, 0g proteína, 1g gordura
Margarina	1 colher de sopa (10g)	10g gordura, 0g proteína, 0g carboidrato
Óleo de soja	1 colher de sopa (10g)	10g gordura, 0g proteína, 0g carboidrato
Sal	1 colher de chá (5g)	0g carboidrato, 0g proteína, 0g gordura
Alface	1 xícara (50g)	5g carboidrato, 1g proteína, 0,5g gordura
Tomate	1 xícara (100g)	10g carboidrato, 1g proteína, 0,5g gordura
Abacate	1 colher de sopa (15g)	5g carboidrato, 1g proteína, 5g gordura
Frango desfiado	100g	25g proteína, 10g gordura, 0g carboidrato
Queijo ricota	100g	15g proteína, 10g gordura, 0g carboidrato
Leite condensado	1 lata (400g)	30g carboidrato, 20g proteína, 10g gordura
Doce em pó	1 colher de sopa (10g)	10g carboidrato, 0g proteína, 0g gordura
Chocolite	1 barra (50g)	30g carboidrato, 5g proteína, 15g gordura
Doce de leite	1 colher de sopa (15g)	20g carboidrato, 0g proteína, 1g gordura
Margarina	1 colher de sopa (10g)	10g gordura, 0g proteína, 0g carboidrato
Óleo de soja	1 colher de sopa (10g)	10g gordura, 0g proteína, 0g carboidrato
Sal	1 colher de chá (5g)	0g carboidrato, 0g proteína, 0g gordura
Alface	1 xícara (50g)	5g carboidrato, 1g proteína, 0,5g gordura
Tomate	1 xícara (100g)	10g carboidrato, 1g proteína, 0,5g gordura
Abacate	1 colher de sopa (15g)	5g carboidrato, 1g proteína, 5g gordura
Frango desfiado	100g	25g proteína, 10g gordura, 0g carboidrato
Queijo ricota	100g	15g proteína, 10g gordura, 0g carboidrato
Leite condensado	1 lata (400g)	30g carboidrato, 20g proteína, 10g gordura

Chocolite	1 barra (50g)	30g carboidrato, 5g proteína, 15g gordura

Project Phase / ID		Req. ID	Req. Name	Category	Priority	Status	Owner	Assignee	Due Date	Progress %	Comments	Feedback	Next Steps
Phase 1	Req. 1	REQ-001	Implement User Authentication	Security	High	In Progress	John Doe	Jane Smith	2023-12-15	75%	Initial design complete, starting development.	Positive	Review security audit findings.
Phase 2	Req. 2	REQ-002	Implement User Profile Management	Security	Medium	On Hold	John Doe	Jane Smith	2024-01-01	20%	Waiting for UI/UX design.	Neutral	Complete UI/UX design.
Phase 3	Req. 3	REQ-003	Implement User Session Management	Security	High	Completed	John Doe	Jane Smith	2023-12-01	100%	Final testing and deployment.	Positive	Monitor system performance.
Phase 4	Req. 4	REQ-004	Implement User Password Reset	Security	Medium	In Progress	John Doe	Jane Smith	2023-12-20	60%	Developing password reset logic.	Positive	Implement password reset logic.
Phase 5	Req. 5	REQ-005	Implement User Account Deletion	Security	Medium	On Hold	John Doe	Jane Smith	2024-01-10	10%	Waiting for UI/UX design.	Neutral	Complete UI/UX design.
Phase 6	Req. 6	REQ-006	Implement User Account Lockout	Security	High	In Progress	John Doe	Jane Smith	2023-12-25	80%	Implementing account lockout logic.	Positive	Implement account lockout logic.
Phase 7	Req. 7	REQ-007	Implement User Account Recovery	Security	Medium	On Hold	John Doe	Jane Smith	2024-01-15	5%	Waiting for UI/UX design.	Neutral	Complete UI/UX design.
Phase 8	Req. 8	REQ-008	Implement User Account Verification	Security	Medium	In Progress	John Doe	Jane Smith	2023-12-30	40%	Developing account verification logic.	Positive	Implement account verification logic.
Phase 9	Req. 9	REQ-009	Implement User Account Security Audit	Security	High	On Hold	John Doe	Jane Smith	2024-02-01	0%	Waiting for UI/UX design.	Neutral	Complete UI/UX design.
Phase 10	Req. 10	REQ-010	Implement User Account Security Audit	Security	High	On Hold	John Doe	Jane Smith	2024-02-01	0%	Waiting for UI/UX design.	Neutral	Complete UI/UX design.

Table 1: Summary of the 2019-2020 Season									
Year	Month	2019		2020		2021		2022	
		Jan	Feb	Mar	Apr	May	Jun	Jul	Aug
2019	Jan	0.1	0.2	0.3	0.4	0.5	0.6	0.7	0.8
2020	Jan	0.1	0.2	0.3	0.4	0.5	0.6	0.7	0.8
2021	Jan	0.1	0.2	0.3	0.4	0.5	0.6	0.7	0.8
2022	Jan	0.1	0.2	0.3	0.4	0.5	0.6	0.7	0.8
2023	Jan	0.1	0.2	0.3	0.4	0.5	0.6	0.7	0.8

QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital?	ANSWER It shifts the demand curve to the right.	EXPLANATION A decrease in the price of a factor of production (e.g., labor) makes it more attractive to use that factor. This increases the demand for capital, shifting the demand curve to the right.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for labor?	ANSWER It shifts the demand curve to the left.	EXPLANATION A decrease in the price of a factor of production (e.g., labor) makes it more attractive to use that factor. This decreases the demand for capital, shifting the demand curve to the left.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor?	ANSWER The demand for capital shifts to the right and the demand for labor shifts to the left.	EXPLANATION A decrease in the price of a factor of production (e.g., labor) makes it more attractive to use that factor. This increases the demand for capital, shifting the demand curve to the right, and decreases the demand for labor, shifting the demand curve to the left.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor if the factor of production is capital?	ANSWER The demand for capital shifts to the right and the demand for labor shifts to the right.	EXPLANATION A decrease in the price of a factor of production (e.g., capital) makes it more attractive to use that factor. This increases the demand for capital, shifting the demand curve to the right, and increases the demand for labor, shifting the demand curve to the right.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor if the factor of production is labor?	ANSWER The demand for capital shifts to the left and the demand for labor shifts to the left.	EXPLANATION A decrease in the price of a factor of production (e.g., labor) makes it more attractive to use that factor. This decreases the demand for capital, shifting the demand curve to the left, and decreases the demand for labor, shifting the demand curve to the left.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor if the factor of production is a composite factor?	ANSWER The demand for capital shifts to the right and the demand for labor shifts to the right.	EXPLANATION A decrease in the price of a factor of production (e.g., a composite factor) makes it more attractive to use that factor. This increases the demand for capital, shifting the demand curve to the right, and increases the demand for labor, shifting the demand curve to the right.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor if the factor of production is a composite factor and the price of the composite factor is less than the price of capital?	ANSWER The demand for capital shifts to the right and the demand for labor shifts to the right.	EXPLANATION A decrease in the price of a factor of production (e.g., a composite factor) makes it more attractive to use that factor. This increases the demand for capital, shifting the demand curve to the right, and increases the demand for labor, shifting the demand curve to the right.
QUESTION What is the effect of a decrease in the price of a factor of production on the demand for capital and labor if the factor of production is a composite factor and the price of the composite factor is greater than the price of capital?	ANSWER The demand for capital shifts to the left and the demand for labor shifts to the left.	EXPLANATION A decrease in the price of a factor of production (e.g., a composite factor) makes it more attractive to use that factor. This decreases the demand for capital, shifting the demand curve to the left, and decreases the demand for labor, shifting the demand curve to the left.
